Profile

Motivated and detail-oriented Software Engineering undergraduate with a strong interest in Artificial Intelligence, Machine Learning, and research-oriented software development. Seeking an internship opportunity to apply and enhance technical and problem-solving skills while contributing to innovative software and AI based solutions. Eager to conduct research, learn emerging technologies, collaborate within a dynamic team, and transform ideas into practical and impactful software systems.

Education

Bachelor of Software Engineering Honours (Final year undergraduate)
Open University Of Sri Lanka

Dehiowita National School, Dehiowita.
A/Ls in Physical Stream (3 Passes)
O/L (9 Passes Including A-6, B-3)

Certificate Courses

Cambridge English – Entry Level Certificate in ESOL International (Entry Level 3)
Cambridge Assessment English

Vocational Qualification – Level 3(Mega Computer System)
Areas covered: Microsoft Office ,Internet & Email ,Accounting ,Introduction to Graphic Design

Projects and Research

Early Wild-Elephant Detection and Farmer Alert System Final-Year Project | Ongoing
-Developing an IoT-based system using sensors, ESP32 and LoRa for early elephant detection.
-Developing a software application to provide real-time alerts and support farmers.
-Technical Skills: IoT, AI

Vision-Based Intelligent Overtaking Decision Support Framework Undergraduate Research Project | Ongoing
-Researching an AI/computer-vision-based system for safer overtaking decisions on two-lane roads.
-Exploring vehicle detection, object tracking, TTC, relative speed and risk-based decision support.
-Technical Skills: AI, Computer Vision, Machine learning

DinePulse – Smart Feedback System Software Design Group Project
-Developed a smart restaurant feedback and analytics solution using software engineering principles.
-Gained experience in software development, teamwork, system design and problem-solving.
-Designed user interfaces and interactive prototypes using **Figma**
-Technical Skills:- Appwrite, UML, UI/UX design

Healthcare OPD Management System Software Design Project
-Designed a healthcare OPD system and prepared requirements, system documentation and UML diagrams.

Android Mobile Application Academic Project
-Technical Skills: Java, Android Studio

Research Experiences

iPurse 2025 – Research Conference
University of Peradeniya

-Presented research on improving healthcare access in underserved rural communities through technology-supported solutions.
-Explored mobile clinics, online healthcare support and community/volunteer platforms.

Activities And Leadership

CodeRally 2026 – IIT
Team member (Participated in a programming competition as part of a five-member team, developing problem-solving and teamwork skills, Use Python Language).

Head Prefect – Dehiowita National School
Developed leadership, communication, teamwork and organizational skills.

Areas Of Interest

-Artificial Intelligence
-Machine Learning
-Computer Vision
-AI Research
-Software Engineering
-IoT

Skills

Technical Skills

-Programming Languages: Familiar with Python, C#, Java, HTML, and CSS, with practical experience applying these technologies in academic projects and software development tasks.

Soft Skills

-Problem Solving
-Teamwork & Collaboration
-Research 7 Analytical Thinking
-Communication
-Leadership
-Technical Documentation

Other

-IoT Systems
-UML & System Design
-Requirement Engineering
-Software Documentation
-UI/UX Design (Designed UI/UX concepts, wireframes, and interactive prototypes for multiple software applications using **Figma**. Focused on user-friendly interfaces, navigation, usability, and consistent design.)

Personal Details

- Full Name: Kirihathan Kandalage Harindu Sasanka Ellawala
- Date of Birth: 17 February 2000
- Gender: Male
- NIC Number: 200004800547
- Languages: Sinhala, English
